

Application: SOURCE for Eco-Tourism

Site Name: Mistere Kangaroo Island

Location: Kangaroo Island, South Australia

Installation Method: Ground Mounted

Array Size: 10 Hydropanels

Project Overview

The Mistere eco-resort, located on Kangaroo Island, South Australia, is a sanctuary for those seeking to enjoy wildlife and the natural beauty of Kangaroo Island. The installation of ten SOURCE Hydropanels at the site will now provide visitors and residents of Mistere Resort with their own supply of clean drinking water. A sustainable and renewable solution for water, this SOURCE Hydropanel array will offset up to 200,000 plastic bottles over its lifetime.

This project received funding as part of ARENA's Advancing Renewables Program.
